

BJP leader Sonali Phogat's autopsy report says 'multiple blunt force injuries on body'

The Goa Police Thursday registered a murder case to probe the death of BJP leader Sonali Phogat. The 42-year-old actor-turned-politician died of a suspected heart attack in Goa on Tuesday with her family questioning the circumstances leading to her death. Inspector General of Police Omvir Singh Bishnoi said, "Based on the complaint filed by the brother of the deceased, an FIR under Section 302 (murder) has been registered at the Anjuna Police Station."

Out of power, Imran Khan continues to be powerful in Pakistan

Pakistan is on the edge again. Its economy is broken and Imran Khan is threatening to set the house on fire if the army leadership does not pave his way back to power. Three factors underlying its dysfunctional state have brought about this situation.

First, the Pakistani economy, prone to periodic crises because of its structural problems — notably the burdens imposed by its adversarial posture against India — has been hit hard by the pandemic and the Ukraine war. Inflation is high, the Pakistan rupee has nosedived, foreign exchange reserves are worth about six weeks' imports and nearly \$40 billion borrowing is required to meet the external financing needs in the current financial year.
